

FARM RADIO LISTS

GOOD FEATURES

Variety of Economic Subjects to be Discussed by Experts

Continuing the series of economic reports presented in special radio version by the men who compile them, the department of agriculture fifteen-minute daily radio program this week will feature the report by W. F. Callander, chairman, and other members of the Federal Crop Reporting board, of intentions to plant spring crops. This report will include supplementary outlook information—amplifying the outlook statements made on January 28 and revising them in the light of the new information disclosed by the survey of farmer's planting intentions.

The "intentions to plant" report will be given on Tuesday, March 26. Other broadcasts of the week include talks on the farm labor situation, the home vegetable garden, windstorm insurance, recent developments in agricultural scientific research, the lamb market, control of parasites, spring clothing for children, and new developments in the rapidly-growing rabbit industry.

The complete program for the week follows:

Monday, March 25—"The Farm Labor Situation," Dr. L. C. Gray, in charge, division of land economics, Bureau of Agricultural Economics; and "Growing Your Spring Tonics," W. R. Beattie, extension horticulturist.

Tuesday, March 26—Special Summary of Report: Intentions to plant spring crops, W. F. Callander, chairman, and members of the Federal Crop Reporting Board.

Wednesday, March 27—"Is Windstorm Insurance Worthwhile?" Dr. V. N. Valgren, farm insurance specialist, Bureau of Agricultural Economics; and Farm Science News Flashes, C. E. Gapen, chief, Press Service.

Thursday, March 28—"Sidelights on the Cattle Market," C. A. Burmeister, livestock marketing specialist, Bureau of Agricultural Economics; and "Putting the Lid on the Farm Underworld," Dr. M. C. Hall, chief, zoological division, Bureau of Animal Industry.

Friday, March 29—"Style Plus Comfort in the Children's Spring Outfits," Miss Clarice Scott, clothing specialist, Bureau of Home Economics; and "Rabbits for Easter," F. G. Ashbrook, in charge, division of fur resources, Bureau of Biological Survey.

These talks are broadcast at 12:15 to 12:30 P. M., Central Standard Time (1:15 to 1:30 P. M., Eastern Standard Time, or 11:15 to 11:30 A. M., Mountain Standard time), by the following stations associated with the National Broadcasting company:

WSB, Atlanta; KOA, Denver; WOAI, San Antonio; WFAA, Dallas; KVOO, Tulsa; WMC, Memphis; WSM, Nashville; WDAF, Kansas City; WOW, Omaha; WHAS, Louisville; WRC, Washington; KDKA, Pittsburgh; KWK, St. Louis; WHO, Des Moines; WOC, Davenport; KFKX, Chicago; and KSTP, St. Paul-Minneapolis.
